

DRYER/
GRANULATOR
SERIES

FBD-300/600/1000

Fluid Bed Processor

Applications:

Fluid bed processor is maximum efficiency for drying and granulating. Its principle ensures an amazingly fast, gentle and even drying. Fluid Bed Dryers are therefore often used in combination with granulators.

Main Data

- Volume: -650

- Max. Batch Capacity -200 to 300

- Air Flow -3235

- Steam Consumption -250

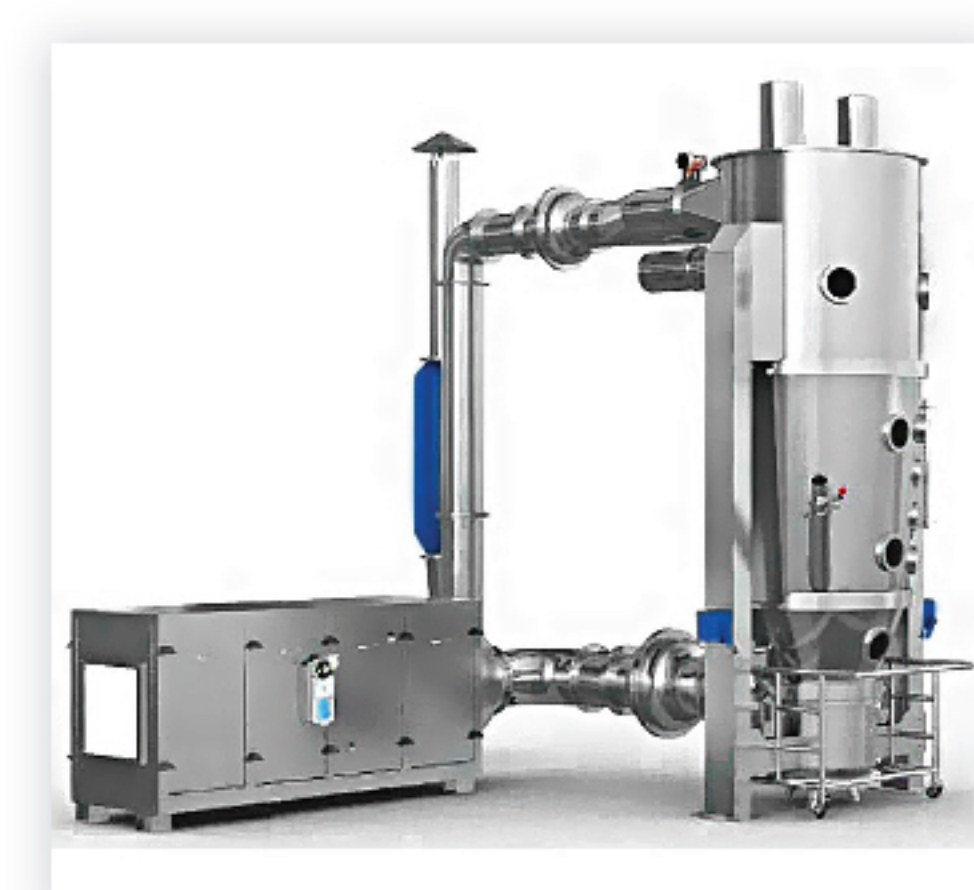

- Blower Motor -30
